

Measuring Impact of Youth Work with Skills Summary

Do you find it difficult and time consuming to **demonstrate** the value and impact of your work with young people?

Would you like to visually **show the progress** young people are making and the pathway informant of them?

We can provide **reporting** to help you track progress and **measure the impact** of youth work!

What:

Young people develop a range of transferrable life skills through taking part in youth work, volunteering and other out-of-school activities. Skills Summary supports your organisation to communicate the value of these skills and impact of your work.

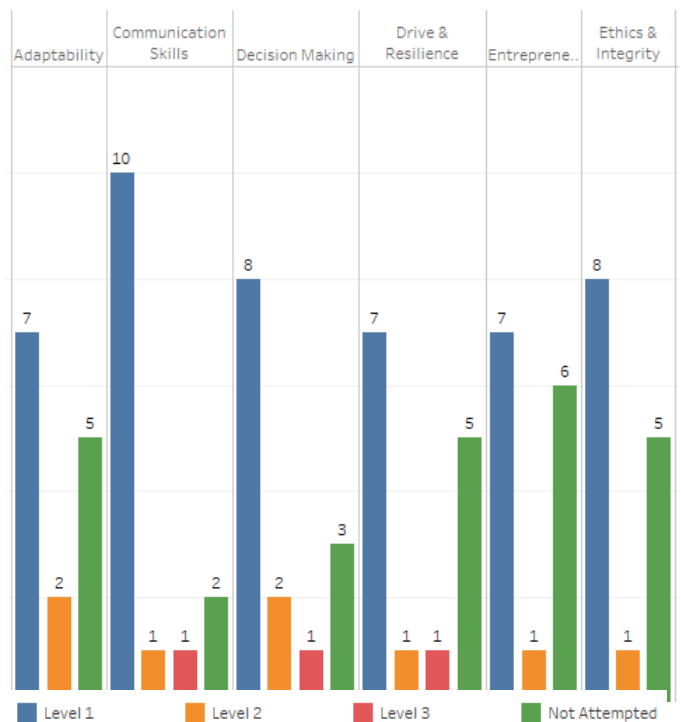

Benefits to You!

- ✓ Easy to use, creative and age-appropriate online tool, designed for front-line practice
- ✓ Dialogue tool between a young person and a youth worker, mentor or teacher
- ✓ Easy to access, flexible and multidimensional, supports existing structures and work processes
- ✓ Values non-formal learning like youth work or volunteering and skills gained with it
- ✓ Free of charge

Your reports:

- ✓ Get quantitative data about young people`s skill development
- ✓ Track and capture progress and changes of young people`s skill development over time
- ✓ Enhance your service: use reports for gap analysis and project planning
- ✓ Measure the achievements and impact of your work for reporting and funding applications

Skills Progress - Total

Start measuring the impact of your activities today!
